

Online Admission System

System Requirements & Process Document — Draft 2.1

Imeandaliwa kwa msingi wa Official Application Form 2026/2027 | September 2026

1. Lengo la Mfumo

Kutengeneza mfumo wa Online Admission utakaorahisisha mchakato wa kuomba admission kwa mwanafunzi na kurahisisha kazi za Admission Office ya chuo.

Mfumo unaondoa utegemezi wa:

- Application forms za PDF
- Kuchapisha na kuscan forms
- Kutuma applications kwa email/post
- Manual checking ya taarifa
- Manual tracking ya application
- Mawasiliano yasiyo na status ya wazi

Mfumo una pande mbili kuu:

- Student/Applicant Portal**
- Institute/Admission Management Portal**

Architecture inaruhusu integrations za baadaye kama NECTA/NACTVET verification, payment APIs (GePG) na SMS services.

2. Principle Kuu ya Mfumo

Simple for the student, powerful for the institute.

- Student asijazwe form ndefu na taarifa zisizohitajika wakati wa kuomba.
- Institute ipate tools za kutosha kusimamia applications, verification, selection na reporting.

3. Student/Applicant Process (Flow Iliyokamilika)

Create Account → Personal Information → Academic Information
→ Application Fee (Control Number) → Programme Selection
→ Eligibility Check → Review → Submit → Track Status

Uamuzi wa mchakato (umethibitishwa): Application fee inalipwa **kabla** ya programme selection. Hii ni sawa na mifumo mingine ya Tanzania (Mzumbe, OUT, UDSM) — control number inatengenezwa mara baada ya registration/taarifa za msingi kukamilika, mwombaji analipa, ndipo anaendelea kuchagua programme.

4. Step 1 — Create Account

Required - First Name, Middle Name (kama ipo), Last Name - Phone Number - Password / Confirm Password

Optional - Email Address

Baada ya registration, system inatengeneza **Application Number** (mfano: MATI-2026-000124).

Phone number ni ya lazima kwa mawasiliano ya SMS. (Ongezeko: fikiria OTP/authentication code kwa first login badala ya password pekee — inasaidia maeneo yenye changamoto za password reset.)

5. Step 2 — Personal Information

(Imesasishwa kulingana na Official Application Form 2026/2027 — Section C)

Required: First/Middle/Last Name, Gender, **Date of Birth**, **Place of Birth**, **Marital Status** (Single/Married/Other), Citizenship (Tanzanian/Others — specify), Phone Number, Region, District, **City/Town**, Present Address, Postal Box

Optional: Email

Passport Photo: Upload wakati wa application (coloured, jina nyuma) — hii ni tofauti na “certificates” nzito (birth cert, academic certs), inahitajika mapema kwa ID na admission letter.

Disability Status (ongezeko kutoka form halisi): Yes/No; ikiwa Yes, eleza. *Muhimu: hii ni kwa ajili ya institute kuandaa msaada muafaka — si sharti la kukubali/kukataa admission. Weka field hii kwa uangalifu (optional, na taarifa wazi kwa mwombaji kuhusu matumizi yake).*

Next of Kin (detailed zaidi kuliko draft ya awali): - Full Name, Relationship (mfano: Father), Phone Number - Present Address, Postal Box, City/Town - Email Address

6. Step 3 — Academic Information

(Imesasishwa kulingana na Official Application Form — Section C)

- Qualification type (CSEE/Form IV, NVA Level III, Diploma/NTA, Other)
- Index Numbers mbili** (form halisi inaomba zote):
 - Form IV/CSEE Index No. — format S0000/0000/0000
 - Index No. ya pili — format P... (huenda ni PSLE — thibitisha na institute maana yake hasa)
- Division na Points** za matokeo ya NECTA (mfano: Division II, points 24)
- Year Completed, Secondary School Name, **Country** (kwa waliosoma nje)
- Primary School:** Jina, District, Region (hii ilikuwa haipo kwenye draft ya awali — form halisi inahitaji)

Ongezeko muhimu — Index Number & AVN validation: - Weka field validation kwa format za index number hapo juu - Kwa waombaji wenye Diploma/NTA wanaoendelea (NTA5→NTA6), ongeza field ya **AVN (Award Verification Number)** kutoka NACTVET (mfano: 19NA12212ME), hata kama verification bado ni manual kwa sasa - **Muhimu:** Kwa mujibu wa form halisi, **NACTVET verification rasmi inafanyika BAADA ya selection**, siyo wakati wa application. Kwa hiyo automatic eligibility check ya system (Sehemu ya 9) ni preliminary tu based on taarifa alizolingiza mwombaji mwenyewe — siyo verified na NACTVET mpaka baada ya kuchaguliwa.

Certificate upload si mandatory wakati wa initial application (certificates zinahitajika baadaye — ona Sehemu 14).

7. Step 4 — Application Fee

Fee: TZS 20,000 — Non-refundable (kwa mwaka 2026/2027)

Application Fee → Generate Control Number → Student Anapiga Malipo
→ Payment Verification → PAID

Payment Status (imepanuliwa): - Unpaid - Pending - Paid - Failed - **Expired** (control number za GePG/mobile money zina muda wa kuisha — ongezeko)

Business Rule: Student hawezi kuchagua programme mpaka fee iwe PAID.

Ongezeko — Non-Tanzanian applicants: Weka fee tofauti/utaratibu tofauti kwa waombaji wa kigeni (kama UDSM: TZS kwa Tanzania, USD kwa foreign), kwani doc ya awali haikuwa na tofauti hii.

Uamuzi unaohitajika — Control Number (muhimu kabla ya FRD):

Mchakato wa sasa (manual, form halisi) unatumia **control number MOJA ya pamoja kwa waombaji wote** (997400027916 kupitia NMB/GePG), na verification inafanyika kwa kuangalia risiti iliyowasilishwa (manual, siyo automatic per-applicant).

Kwa online system, chagua moja:

- Endelea na control number ya pamoja** — rahisi zaidi kutumia GePG setup iliyopo sasa, lakini payment verification inabaki manual (Finance Officer ana-cross-check risiti/reference number dhidi ya jina la mwombaji)
- Omba control number za kipekee kwa kila mwombaji** kutoka NMB/GePG — inaruhusu automatic verification, lakini inahitaji mpangilio mpya wa kibiashara na benki/GePG kabla ya development kuanza

Hii ni uamuzi wa kibiashara (business decision) na chuo, siyo teknolojia pekee — thibitisha kabla ya kuandika FRD kwa sababu inaathiri database design ya Payment module.

Architecture iwe tayari kwa GePG / payment API integration bila kujali chaguo litakalochukuliwa.

8. Step 5 — Programme Selection

Inafunguka baada ya payment confirmation. Mfano MATI Uyole 2026/2027:

Programme	NTA Level
Basic Technician Certificate in Agriculture Production	4

Technician Certificate in Agriculture Production	5
Ordinary Diploma in Agriculture Production	6

Kila programme ina: jina, NTA Level, description, entry requirements, application availability/status.

9. Automatic Eligibility Check

(Requirements kamili kutoka Official Form — Section D)

Programme	Entry Requirements
NTA Level 4	CSEE — angalau vipasso 4 vya D, mbili kati yake ni za Sayansi (Chemistry, Physics, Biology, Mathematics, Agriculture, Engineering Science, Geography, Human Nutrition), na vipasso viwili vya masomo yasiyo ya dini. AU — NVA Level III (au sawa) katika kozi ya kilimo, na angalau vipasso 2 vya D kwenye CSEE (masomo yasiyo ya dini)
NTA Level 5	NTA Level 4 katika Agriculture Production. AU — ACSEE yenye “Agriculture Science” kama principal pass, na angalau subsidiary pass moja nyingine
NTA Level 6	NTA Level 5 katika Agriculture Production NA NTA Level 5 katika General Agriculture (vyeti viwili tofauti — <i>thibitisha uhalisia wa hili na institute, kwani ni sharti lisilo la kawaida</i>)

Muhimu: Eligibility check ya system ni preliminary based on taarifa alizoingiza mwombaji; NACTVET verification rasmi inafanyika baada ya selection (ona Sehemu 6).

Matokeo: - ✓ **Eligible** — “You meet the basic requirements for this programme.” - × **Not Eligible** — “Based on the information provided, you do not meet the basic entry requirements.”

Note: Ni preliminary check tu; uamuzi wa mwisho unabaki kwa institute.

Ongezeko: Weka njia ya **appeal/re-application** — mwombaji aliyepata “Not Eligible” aweze kurekebisha taarifa (mfano typo kwenye grade) na kuwasilisha tena, badala ya kuishia njia panda.

10. Step 6 — Review Application

Summary kabla ya submit (Personal Info, Academic Info, Fee status, Programme), na uwezo wa **Edit** kabla ya submission.

11. Step 7 — Submit Application

Confirmation checkbox → SUBMIT APPLICATION → Status: SUBMITTED / UNDER REVIEW

Student hawezi kubadilisha taarifa muhimu baada ya submission bila ruhusa ya institute.

12. Student Dashboard

Onyesha: karibu, Application No, progress checklist, Current Status, na **Next Step** pekee (siyo taarifa zote kwa mkupuo).

13. Application Status (Full List)

Draft → Payment Pending → Paid → Submitted → Under Review → Additional Information Required → Eligible/Not Eligible → Selected/Not Selected/**waitlisted** → Admission Completed

(Ongezeko: *waitlisted* — badala ya “Not Selected” kuwa binary pekee, kama capacity ikijaa.)

14. Documents — Baada ya Selection

SELECTED → COMPLETE ADMISSION → UPLOAD REQUIRED DOCUMENTS

Documents: Birth Certificate, Passport Photo, Academic Certificates, nyingine.

Principle: *Application* (taarifa za kuomba) na *Admission/Registration* (documents baada ya kuchaguliwa) ni hatua mbili tofauti.

Ongezeko — Institute Fees (kuonyeshwa baada ya selection, siyo wakati wa application):

Item	NTA 4	NTA 5	NTA 6
------	-------	-------	-------

Installment ya 1 (jumla)	610,400	610,400	610,400
Installment ya 2 (jumla)	500,000	500,000	1,120,000
Jumla ya Mwaka	1,110,400	1,110,400	1,730,400

(Hii ni tofauti kabisa na TZS 20,000 application fee — inaonyeshwa kwenye Admission/Registration stage tu, kama sehemu ya “Complete Admission” checklist.)

- **HESLB loan proof** — field ya kuweka uthibitisho wa mkopo (kwa wanaostahili), inawasilishwa wakati wa **registration**, siyo application
- **Student requirements checklist** (mattress, bedsheets, uniform, stationery, n.k.) — vinaweza kuonyeshwa kama “Pre-Arrival Checklist” kwenye dashboard ya mwanafunzi aliyechaguliwa, siyo sehemu ya database fields za lazima

15-17. Institute/Admin Portal — Dashboard, Programme & Requirements Management

- Dashboard ya applications zote kwa status
- Programme management: add/edit/activate, NTA level, capacity, **application period/window** (ongezeko: TCU-style “rounds” — dirisha la kwanza, la pili)
- Requirements zisizo hard-coded — configurable kwa kila academic year

18-19. Application Management & Review

Admission Officer anaweza: search/filter (Application No, Name, Phone, Programme, Gender, Region, District, Payment status, Application status), review taarifa zote sehemu moja, change status, request additional info, approve/reject.

Ongezeko — Duplicate check: Zuia mwombaji mmoja (Index Number/phone moja) kuomba mara mbili kwa programme tofauti mwaka mmoja bila sababu za msingi.

20. Selection Management

Admin anaweka academic year, programme, capacity, selection criteria. System inasaidia kupanga applicants; **final approval inabaki kwa authorized staff**.

21. Admission Letter

Auto-generated: institute details, applicant name, Application No, programme, NTA level, academic year, reporting info. Baadaye: **QR Code verification**.

22. SMS Notifications

SMS kwa: account creation, payment confirmed, submission, status update, selection, documents required. SMS ni primary channel; email ni supplementary. Abstraction layer ili provider iweze kubadilishwa.

23. Institute Reports

Application Report (by programme, gender, region, district, eligibility, selection) na Payment Report — exportable Excel/CSV/PDF.

24. User Roles

Role	Access
Super Admin	System config, users, roles, programmes, academic years
Admission Officer	Applications, verification, eligibility, selection workflow
Finance Officer	Payments, reports, reconciliation
Approving Authority	Final approval, selection approval
Applicant	Own application, status, notifications, documents

25. Audit Log

Kila action muhimu inahifadhiwa (nani, lini, alifanya nini) kwa accountability na security.

26. Future Integrations

Eneo	Sasa	Baadaye
Academic Verification	Manual/system verification ya Index Number	NECTA/NACTVET API
Payment	Control number / mobile money manual confirmation	GePG / Approved Payment API
SMS	Notification service (abstraction)	SMS Provider integration
Email	Notification service (abstraction)	Email Provider integration

27. Important Design Rules

1. Student asiulizwe taarifa isiyohitajika wakati wa hatua hiyo
2. Application iwe short and simple
3. **Programme selection ifunguke baada ya application fee payment confirmation** (*imethibitishwa — sawa na mifumo mingine ya Tanzania*)
4. Documents nyingi ziwe admission/registration stage, siyo initial application
5. Student aone progress na status muda wote
6. SMS ni primary notification channel, email ni supplementary
7. Admission requirements ziwe configurable
8. Payment, SMS, academic verification, document verification ziwe modules zinazo-integrate APIs baadaye
9. System iwe mobile-first
10. Final admission decision ibaki kwa authorized institute officials

28. MVP — Tunachojenga Kwanza

Student: Registration, Login, Dashboard, Personal/Academic Info, Payment, Programme Selection, Eligibility Check, Review, Submit, Status Tracking

Institute: Admin login, Dashboard, Programme Management, Requirements, Application Management/Review, Payment Monitoring, Eligibility, Selection, Status Management, Reports, SMS

Later: Document upload baada ya selection, Admission letters, QR verification, NECTA/NACTVET integration, GePG integration, Advanced SMS, Waitlist automation, Appeal/re-application flow

29. Final System Flow

Student: Create Account → Personal Info → Academic Info → Pay Fee → Programme Selection → Eligibility Check → Review → Submit → Track Status → Selection/Waitlist → Upload Documents → Admission/Registration

Institute: Configure Academic Year → Set Application Windows → Add Programmes → Set Requirements → Receive Applications → Payment Monitoring → Review → Eligibility Verification → Selection → Approval → Notify Students → Admission Documents → Registration

30. Core Vision

A simple digital admission workflow connecting the applicant and the institute — from application to admission.

Applicant: hatua chache, lugha rahisi, mobile-friendly, anaona status yake kila wakati.

Institute: centralized applications, verification, payment tracking, selection, communication na reports sehemu moja.

Hatua Inayofuata

Draft 2.1 hii ndiyo msingi wa **Functional Requirements Document (FRD)** — itakayoeleza kila page ya Student Portal na Institute Portal, fields zake required/optional, validations, buttons, statuses, na business rules, tayari kwa UI/UX na database design.
